

S ***SLACKER***

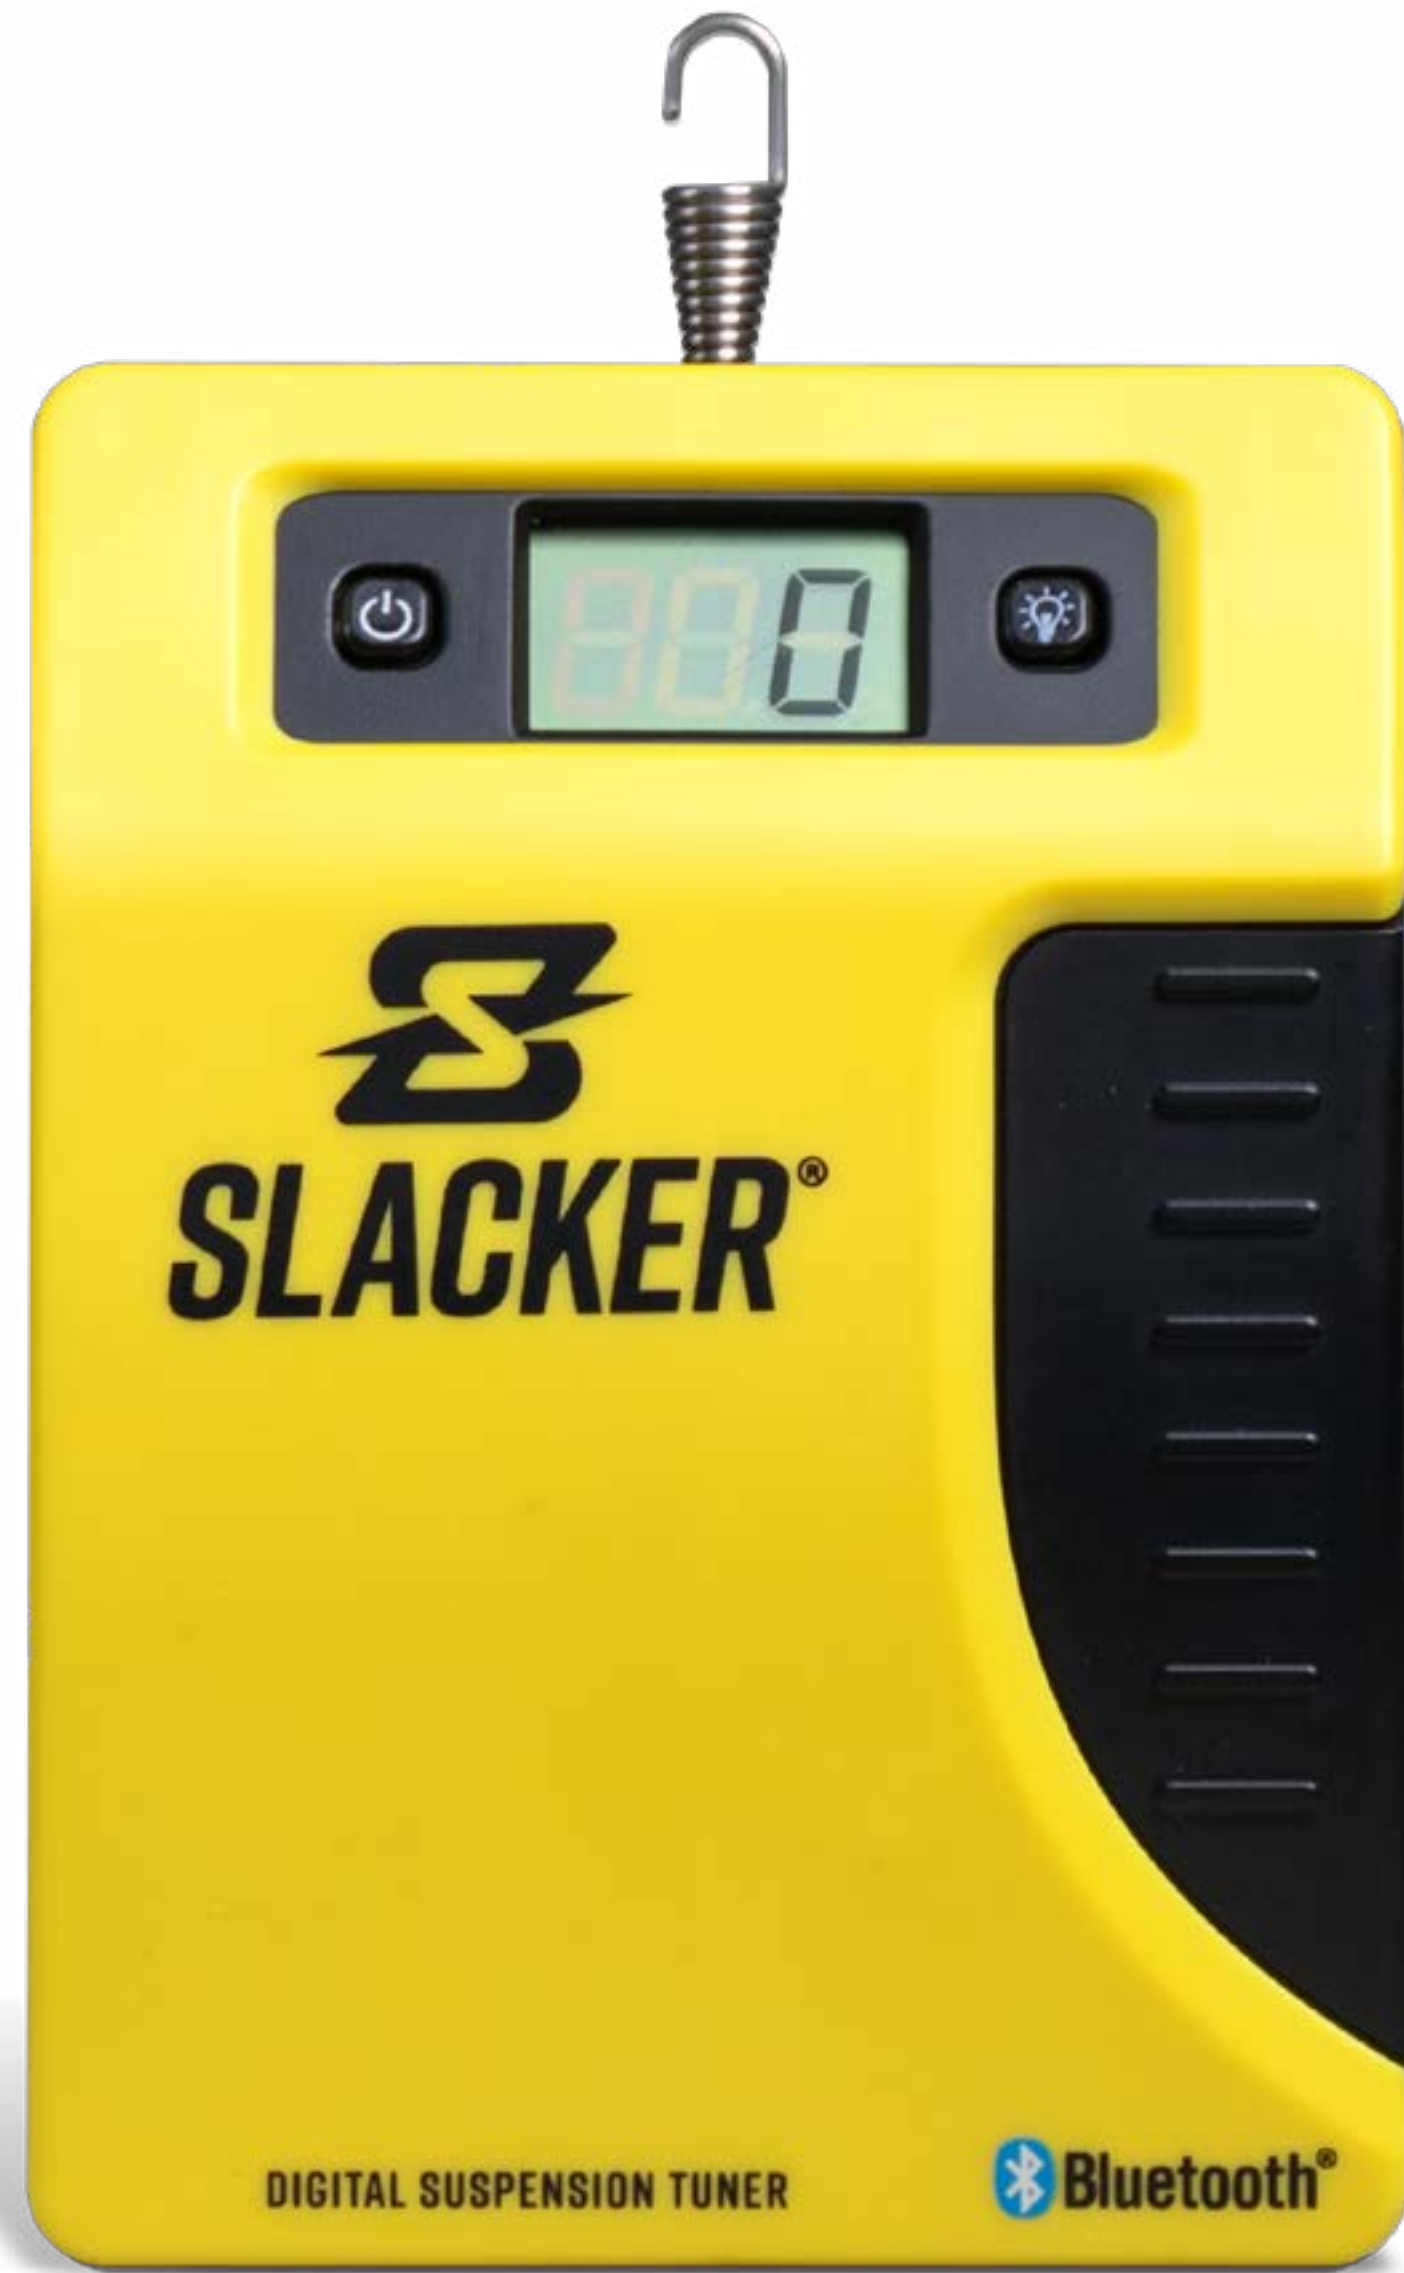

In 2012, I rediscovered my passion for motocross after a 26-year hiatus from biking. Acquiring a 2012 YZ450F, I eagerly hit the track, only to confront the stark reality of my physical decline after years of music and touring. As I honed my fitness, I grappled with cornering difficulties, uncertain whether the issue lay with me or the bike, given my lengthy absence from riding.

Ultimately, I pinpointed a weight bias problem inherent in the new reversed cylinder head introduced in 2010. Through meticulous adjustments, I mastered the art of bike setup that year, culminating in the creation of a groundbreaking tool that would profoundly alter my trajectory.

This venture is a tribute to those who dare to chase their dreams at any cost. Here's to the fearless souls.

John Casebeer
Founder, Slacker LLC

SLACKER DIGITAL SUSPENSION TUNER

The Slacker Digital Suspension Tuner is designed for professionals to beginners to easily dial in their suspension settings with no assistance required. This easy-to-use, patented suspension tuning system quickly mounts to motorcycles and mountain bikes and provides simple, fast, and precise measurements in seconds. Receive instant readings using our optional wireless remote, or on your smartphone with our app.

SLACKER WIRELESS REMOTE DISPLAY

The new Slacker wireless remote allows you to instantly see your readings right on your handlebars. Just strap it on the bars with the attached hook and loop strap and turn it on, and you are ready to take measurements while seated in a normal riding position! Only compatible with the new Slacker V5, requires 2) AAA Batteries- Not Included

SLACKER SMARTPHONE BAR MOUNT

The Slacker Smartphone Bar Mount is a simple, economical bar mount that allows you to easily mount your phone on the bars. Simply put it on the bars, tighten the quick adjuster and slip the phone between the spring-loaded, rubberized jaws. Not intended for use while riding, this is just for taking measurements in place.

SLACKER CLEAR ADHESIVE LOOPS

These clear adhesive loops provide a temporary attachment point for Slacker's retractable cable on bodywork where the universal clip can not be used.

SLACKER BALLISTIC NYLON CASE

This super rugged, weather-resistant ballistic nylon protective case will keep your Slacker safe, and organized! The ballistic nylon shell and CNC machined foam insert provide protection for any Slacker, and accessories. Features a molded EVA Ballistic Nylon shell with CNC machined EVA foam insert for Slacker.
